MOHAMMED SHALADAN

Backend Developer |
API Specialist

PROFILE

Passionate and results-driven Backend Developer with over 3 years of hands-on experience in building, securing, and maintaining modern APIs using Laravel and PHP. Specialized in RESTful API development, database design, and performance optimization. Adept at solving complex backend challenges and delivering scalable solutions for web and mobile platforms. Always eager to learn and adopt new technologies that improve development flow and product quality.

WORK EXPERIENCE

Backend Developer – AZIU

Remote – 2022 to 2024

- Developed full websites for restaurants and stores
- Led database structure analysis and performance improvements
- Strengthened team collaboration and task distribution

Backend Developer – INTMARK

Remote – 2021 to 2022

- Created business websites and internal tools
- Participated in building internal communication tools
- Improved backend performance using Laravel and MySQL

Full Stack Developer – Freelancer

2023 to Present

- Specialized in building full websites and RESTful APIs using Laravel
- Developed custom backend systems, admin dashboards, and API integrations
- Handled both backend (Laravel, MySQL) and basic frontend tasks when needed
- Provided ongoing support, bug fixes, and performance improvements
- Communicated directly with clients to gather requirements and deliver scalable, clean-code solutions

PROJECTS

Opa Coupon – Coupon & Discount Platform

<https://opa-coupon.com/>

Opa Coupon – A dynamic Laravel-based platform for discovering and managing online and in-store coupons, featuring vendor access, video testimonials, and smart filtering tools.

AcceptEdu

<https://opa-coupon.com/>

AcceptEdu – A modern educational consulting platform developed with Laravel, offering students streamlined access to university admission services, application tracking, and tailored guidance.
